

## Scientist Of The Week

Dear Parents,

We are proud to announce our **Scientist of the Week Project!** Each child will have a chance to be the class scientist! The week before your assigned date, your child will receive a special science bag. In it will be a lab coat, goggles and books with science projects. You and your child can choose a project from the books or online, prepare it, and come to school on your assigned Thursday and share your experiment with the kindergarten.

Please look below for your assigned date. If there is a conflict with the date or time, please let us know as soon as possible.

Thank you,  
Morah Michelle & Morah Hanielle
